# Innovative scar therapy in an interdisciplinary and interprofessional context

Dear colleagues,

We are delighted to be able to invite you, as the expert audience with a special interest in scar treatment, to join the 11<sup>th</sup> Scar Symposium in Salzburg on November 16<sup>th</sup>, 2024.

It is a great pleasure and challenge for us to have an even more intense cross-border exchange with you.

This year, the focus will be on the following subjects again: Burn surgery, hand surgery as well as reconstructive and aesthetic surgery as well as many aspects that unite us in interdisciplinary and interprofessional teamwork.

The patient is our main focus. Our patients trust us to provide them with the best possible medical care and rehabilitation programmes and our aim is to ensure the best possible quality of life for our patients.

You can use this exciting symposium as a platform to meet colleagues, have discussions and establish networks.

We would like to thank our partners and all speakers and look forward to welcoming you to Salzburg.

Best wishes

Dr. med.  
Bernd Hartmann

Univ. Prof. Dr. med.
